Philosophy Statement

In an effort to build community spirit, self-esteem, lifetime fitness and athletic skills, we support a variety of athletic extra curricular opportunities for our St Wenceslaus students. We encourage participation regardless of ability or experience. Our goals are to:

1. Present opportunities for students to participate on a sports team regardless of skill level or prior knowledge of the sport.
2. Develop and promote good sportsmanship as well as respect of teammates and opponents.
3. Have students learn responsibility and develop self-discipline while competing on a team.
4. To teach the fundamentals, techniques and strategies for each sport in a progressive and planned sequence that is appropriate to the student's grade level.
5. To realize the lifelong health and social benefits of athletics.
6. Build character and self-esteem through hard work and dedication.
7. Have students experience the relationship between practice and improvement and how that transfers to other areas of life.
8. To develop and maintain good relationships between teams, faculty and our community.
9. Have fun!

Code of Ethics

Athletics provide more than exercise and competition. Sports, at their best, teach courage, grace, persistence, discipline and greatness of spirit. We at St. Wenceslaus believe athletics are intrinsic to the spiritual and physical well being of young people. Sports are a vehicle in which young people can learn to work together toward a common goal, respect others, build confidence and develop sound values that will remain with them the rest of their lives. Athletic competition is guided by the following ideas:

Participants:

- Play hard within the rules of the game
- Win with humility, lose graciously
- Respect opponents and officials
- Respect all property and athletic facilities
- Are positive and supportive of teammates and coaches

Coaches:

- Serve as positive role models for their players
- Show restraint and respect when dealing with officials
- Hold players accountable for inappropriate behavior
- Reinforce good sportsmanship
- Are positive and supportive of other school programs, coaches and staff
- Act in a professional manner at all times

Spectators:

- Appreciate and commend good effort and skill no matter which individual or team exhibits it
- Treat officials, opposing cheerleaders, players, coaches and fans with respect and courtesy
- Are good ambassadors for our school
- Keep winning and losing in proper perspective

The success of our athletic programs is not measured just by the final score, but rather by the efforts of all individuals striving to achieve team goals. The sense of purpose, commitment, and self-discipline has much more lasting value than the outcome of any competition. Accordingly, any participant in the St. Wenceslaus program whose conduct is in any way unsportsmanlike on or off the field of play, is subject to probation or suspension after meeting with the coach and athletic director. Use of alcohol, tobacco, or any other illegal substance, will result in the automatic suspension of the offending player. In addition, regular school policy will be enforced. The coach and the principal will determine the length of the suspension.

Team Selection

We want all student-athletes to develop their skills and gain team experience. Team size may be limited so it is workable for practice and games. Additional coaches will be solicited if demand requires additional teams. The selection of players for the various teams may be based on ability, attitude, and commitment level. This selection process shall be at the discretion of the coaches and the Athletic Advisory Council to maximize the student's potential to develop athletic and social skills.

Playing Time

The athlete must understand that game time is directly related to practice experiences, and that performance in practice will be rewarded by game playing time. Each coach should communicate to all athletes what each player's individual abilities are, so as to adequately address measures to improve. Any coach must reserve the right to use key players in key situations.
